R.04-01-006
(Filed January 8, 2004)

**SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT -
MONTHLY STATUS REPORT FOR JUNE 2006**

Southern California Edison Company ("SCE") hereby submits a status report describing its activities for the Low-Income Energy Efficiency ("LIEE") and California Alternate Rates for Energy ("CARE") low-income assistance programs for June 2006. This monthly report includes a narrative that highlights the recent activities that SCE has undertaken to implement its low-income assistance programs and to leverage SCE's program with the services provided by Low-Income Home Energy Assistance Programs ("LIHEAP") providers.

SCE has worked with the other California utilities, the Energy Division, and the Division of Ratepayer Advocates ("DRA") in developing the format for this report and the accompanying tables. This report includes tables detailing SCE's June 2006 activities, as well as certain summary tables as requested by the Commission. All of these tables comply with the information requested in Ordering Paragraphs 14 and 17 of Decision 01-05-033, issued on May 3, 2001, as well as supplemental information requested by the Commission. The June 2006 tables are also submitted in accordance with the direction received from the Energy Division and the DRA on a May 22, 2002 conference call with the Joint Utilities in which it was determined that for certain months, the utilities should file an abbreviated set of tables, but on a quarterly basis, the utilities are to file a full set of tables. This month, SCE is filing the abbreviated set of tables, which includes Tables 1, 4, 6, 10, 11, 11a, 11b, and 16. As the information in these tables is dynamic, the figures submitted herein supersede results reported in prior months. Also, since

SCE has no remaining SBX1 5 funds, SCE has revised many of the tables to eliminate columns that had previously contained SBX1 5 information.

I.

NARRATIVE

A. Description of SCE's Activities for LIEE

In 2005, SCE strengthened the delivery of comprehensive services to low-income customers by maintaining an informed and experienced group of providers. June 2006 activities have continued this approach and reflect the eligibility guidelines and eligible measures as set forth in D.05-12-026. The following information reflects some of the measures completed and expensed in June 2006. For June 2006, SCE hereby reports on the paid installation of measures including 875 permanent evaporative coolers, 34,963 indoor compact fluorescent light bulbs, and 3,323 energy-efficient refrigerators.

In addition to the service delivery work completed in June 2006, SCE completed 6,738 assessments of customer homes and provided education to 5,610 customers.

1. LIEE Outreach and Leveraging Efforts

In 2006, SCE continues to permit any LIHEAP agency to leverage funds from the State Department of Community Services for installation of refrigerators provided at no cost by SCE with LIEE funds. SCE's LIEE contracts with LIHEAP agencies include requirements that refrigerators must be installed in SCE customer homes and completed applications must be returned. Other LIHEAP providers are contacted by phone and mail to provide them with information on this leveraging opportunity.

SCE and SoCalGas have established a cooperative working relationship over the years. SCE continues to refer all customers receiving electric measures and whose assessment indicates gas space heating and three eligible weatherization measures to SoCalGas. In addition,

through this cooperative relationship, customers assessed for SoCalGas' program, who are also SCE customers, get assessed for both gas and electric measures.

SCE is also moving forward with several strategies to increase LIEE enrollment and expedite the delivery of services. Using census/demographic information, SCE continues with its targeted mail campaign to reach customers in areas with the highest concentration of low-income residents.

2. Bulk Purchasing

SCE continues to competitively bid the purchase of energy-efficient appliances. By purchasing these appliances in bulk, SCE exercises a level of control over inventory that may not otherwise be possible. Contract terms are beneficial to both SCE and service providers. For instance, appliances are shipped in small quantities and are warehoused in a number of locations convenient to service providers. Finally, SCE is able to obtain the best price possible through a competitive bid process.

B. Description of SCE's Activities for CARE

As of June 30, 2006, a total of 1,044,366 customers were participating in the CARE program. Based on SCE's revised estimates of CARE eligible customers as submitted to the Commission in Table 16 of this report, which reflects the increased income eligibility to 200% of federal poverty guidelines, SCE's current enrollment equates to a penetration rate of approximately 78%.

1. Outreach Provided to California Indian Tribes So That Compliance With SBX1 5 Section 5(j) Can Be Monitored

SCE continues to work with the Southern California Indian Center in 2006 to provide important outreach to underserved Native Americans.

2. Discussion of SCE's CARE Program and Outreach Plan

In June 2006, SCE partnered in numerous CARE outreach activities that targeted SCE's hard-to-reach customer base in conjunction with SCE's Consumer Affairs Department and Equal Opportunity Department. SCE hosted several events in the month of June. One such event was the Juneteenth Festival held in Ganesha Park in Pomona on June 17, 2006. This event targeted SCE's low-income African American population. CARE applications, conservation information, and energy efficiency rebate and program information was disseminated to all event attendees.

As part of the CARE Capitation Program, 13 agencies/organizations submitted 274 applications in June 2006. Of these, 179 customers were enrolled, 53 were found to be existing CARE enrollees and 42 applications were rejected. A total of \$2,139 was paid out as part of the Capitation Program in June 2006.

SCE's multi-lingual efforts produced 1,983 applications in June with 1,711 of those applications resulting in new CARE enrollments. SCE also continues to share enrollment data with SoCalGas and Southwest Gas.

Additional outreach efforts include targeted direct-mail, Welcome Kit insertions, shared mail, and recertification mailings. All efforts are bilingual (English/Spanish).

CARE applications are distributed to new or transferring SCE customers through the SCE Welcome Kit, which has resulted in 25,530 new CARE enrollments and 736 recertifications.

In April 2006, a direct mail solicitation was sent to approximately 275,000 income-qualified non-CARE customers. As of June 30, 2006, 4,237 applications have been processed, resulting in 3,453 new CARE enrollments. The annual CARE solicitation bill insert was included in approximately 3.9 million residential customers' bills in June 2006. As a result, through June 30, 2006, 10,570 applications have been processed with 8,811 new CARE enrollees. A second direct mail solicitation to approximately 300,000 income-qualified customers is scheduled for July, and shared mailings will go out in August and September 2006.

SCE's recertification efforts include (1) mailing recertification letters and pre-populated applications to customers one month prior to their CARE anniversary date; (2) mailing Spanish recertification letters to customers that were enrolled via a Spanish-only application; (3) recertification by phone using the automated Voice Response Unit (VRU); and (4) telephone operator-assisted enrollment and recertification.

The operator-assisted enrollment and recertification pilot program includes contacting those customers who have mailed in signed, but incomplete, CARE applications or recertification forms. These customers are given the option of enrolling in or recertifying for the CARE program over the telephone. The operator assisted pilot program was implemented on November 28, 2005 and outgoing calls started on December 1, 2005. As of June 30, 2006, information was successfully collected from 4,381 new and recertifying customers. SCE's recertification by phone through SCE's VRU pilot program entails allowing customers to recertify CARE eligibility over the telephone utilizing SCE's automated VRU. As of June 30, 2006, 8,619 customers successfully recertified by telephone using the VRU. On April 21, 2006, SCE filed with the Commission its *Motion to Extend Certain Low Income Energy Efficiency and CARE Program Policies Authorized in D.05-10-044 Beyond the Winter Initiative Period*, in which SCE sought the Commission's authorization to continue the CARE telephonic enrollment/recertification processes described above. On July 10, 2006, the Commission issued its draft decision,¹ in which it grants SCE's request to continue these telephonic CARE processes.

SCE is further streamlining recertification efforts by providing a "Sign and Mail" recertification application that is personalized with the customer's name, address, and account number. This new application was implemented on May 25, 2006, and allows current CARE customers to simply sign the application certifying their continued CARE eligibility. A notice is

¹ *Opinion Approving Augmentation to the 2006 Low Income Energy Efficiency Program Budget of Pacific Gas and Electric Company and Addressing the Compliance Filings of San Diego Gas & Electric Company, Southern California Gas Company and Southern California Edison Company Regarding Low Income Energy Efficiency Program Budgets.*

sent with this application detailing the current CARE income guidelines. Further, this new application is currently available in English and Spanish, and will be available in Korean, Cambodian, Vietnamese and Chinese.

SCE continues to expand grassroots efforts through strategic alliances. SCE also plans to develop additional data systems and enhancements to CARE applications to improve the infrastructure of the system used to process applications and recertification documents.

In addition to implementing the high level marketing campaign and improving the infrastructure of the application processing/recertification/verification process, SCE will fund the cost recovery for Phase II of the Low-Income Needs Assessment. SCE believes increased marketing and communication to multi-lingual customers is consistent with Commission policy and should lead to increased CARE enrollment.

II.

CONCLUSION

SCE appreciates this opportunity to provide the Commission with updated information about the successes SCE has achieved in its LIEE and CARE programs through the Rapid Deployment effort.

Respectfully submitted,

MICHAEL D. MONTOYA

[1] Includes CARE activities absorbed by non-CARE funding sources.

[2] Includes Regulatory & Compliance and Law.

[3] Includes program management labor, overheads, and information technology support.

[4] Includes only invoices received from the Public Utilities Commission for LIEE reimbursements - 70% allocated to CARE and 30% to other LIEE.

Note: With the implementation of post PROACT rates on August 1, 2003, the 1-cent and 3-cent surcharge exemptions no longer are separate from the CARE discount. CARE customers continue to receive a discount in excess of the mandated 20%, based on post-PROACT rates adopted in D.03-07-029, but the full cost of this discount is now included in rates for recovery from other customers.

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) RAPID DEPLOYMENT - MONTHLY STATUS REPORT FOR JUNE 2006 on all parties identified on the attached service list(s). Service was effected by one or more means indicated below:

Transmitting the copies via e-mail to all parties who have provided an e-mail address.

First class mail will be used if electronic service cannot be effectuated.

Executed this **21st day of July, 2006**, at Rosemead, California.

/s/ CHRISTINE SANCHEZ

Christine Sanchez
